

Portable gravity flow meter  
for petroleum products

Flexicompt+

## Application

Dedicated to gravity measurement of petroleum products

- Product metering during delivery operations to gas stations
- Tank truck, rail car product reception control
- Reduce the risk of fraud
- Partial or full compartment deliveries
- Stationary position also available

## Product certification

Material in conformity with  
Measuring Instruments  
Directive 2004/22/EC

ISO 9001 : 2008

ATEX conformity  
Zone 1 Gas group B

European certifications in  
accordance with directives  
concerning measuring  
instruments and equipment  
installed in explosive area

## Constitution

- 3" ADRIANE Turbine High-accuracy
- UNI electronic calculator Gas detector  
Temperature compensation
- Adaptable input/output connections

## Product benefits

- Quick & easy to use
- Mobile & autonomous
- Lightweight & compact
- Multi-products
- Low pressure drop
- No product retention
- Easy maintenance
- Data transfer to  
PC/smartphone (CTD+ Key)
- Available in French & English

# FLEXICOMPT+

## Key features

FLEXICOMPT is a **portable and compact MID certified** metering system which enables precise measuring of quantities delivered to your site.

With the help of the advanced technology of our **ADRIANE turbine**, the volume delivered to each of your gas stations can be quickly and easily checked. It makes split deliveries possible as well as enabling transparent returned product quantification for **all types of fuel**.

Most importantly, the FLEXICOMPT **shows any discrepancies** between the actual amount delivered and the amount invoiced, meaning a rapid return on investment.

The FLEXICOMPT comes with an infra-red data transfer system, with printer kit and protective carry case as an option.
